Exhibitions

Industry exhibitions done right

Everyone knows how difficult it is to get noticed at industry exhibitions. Our mobile cocktail bar hire service and mocktail bars are one way to attract just the right amount of attention and ensure your business stays memorable long after the exhibition is over.

Hire Cocktail Bars and Flair Bartenders to Bring People to Your Exhibition Stand!

mixandtwist.co.uk

The eye-catching display of colour

The movement and activity involved in flair bartending is hands down one of the most powerful tools you can use at an exhibition stand during a corporate event.

Your stall will attract everyone in the room while expert bartenders will charm the guests into swapping contact details over a freshly mixed cocktail.

Ditch the small talk

All your time, money and effort goes into developing a stand and pitch, but without something to grasp attention, how can you be sure that people will stop and talk to you?

Mix & Twist exhibition stands provide the breath-taking entertainment, leaving you to skip the dull small talk and go straight to exchanging details. People will be more than happy to reach for their business card with one hand, and take a drink with the other.

mixandtwist.co.uk

Win over your guests

Entertaining flair bartenders will entice delegates with their style and delicious menu, and you will feel a buzz of excitement around what will very quickly become the most popular stand at the exhibition.

Your Mix & Twist exhibition stand can provide themed drinks which link to your company, showing attention to detail, further impressing those who come to see what all the fuss is about.

Even those who don't drink will be impressed, as Mix & Twist have a menu of mocktails that guests can choose from. This will leave you with further scope for collecting contact details, as everyone can be included.

If being the talk of the next networking event is something you'd like to look into, then contact Mix & Twist today.

Case study

We needed to create a high energy bar service for Digitain for ICE at Excel.

Managing two different stands, the service included five exhibition flair bartenders to put on shows at multiple times over the three-day event, two dedicated mixologists to create drinks for the waitress team, a back of house manager, coffee machines, and draught beer on tap plus 1,000's of brand matched cocktails. The event was a huge success as we are now the regular exhibition bar partner.
