Mix Method:

Step 1: Build and Churn: Using the Mexican elbow, squeeze a full lime into highball glass.

Step 2: Then balance the cocktail by adding 20ml of sugar syrup. Carefully pull 6/7 mint leaves from the stem (leaving the sprig at the top) and drop into drink.

Step 3: Add crushed ice to top and add 50ml of white rum. Grab your bar spoon and churn the ingredients, pulling all ingredients from bottom through the drink.

Step 4: To finish - top with soda, slap the garnish sprig in your hands and place in drink with a straw.
